

BARRE GOLFERS KEEP ON WINNING

Defeated Mountain View
Club at Greensboro
Saturday, 11 to 6

GREENSBORO COURSE WAS IN FINE SHAPE

State Champion Johnston
Goes to Bennington to
Defend Title

Seventeen members of the Barre Golf club traveled by automobile to Greensboro on Saturday afternoon to play a team match with the Mountain View Country club of that place. Most of the old players were back in Greensboro this season and they had out a very strong team. However, they did not prove strong enough for the Barre club, as the latter won out by a score of 11 to 6. The Greensboro course is in fine shape this season. The Barre club has not been defeated this season so far and it looks as if it is to keep up its record, for it has at present the strongest match team that ever the club has had since it started. It is expected that it will play the Meadow Brook club on the latter's course on Saturday.

While at Greensboro on Saturday, arrangements were made whereby the round robin or three-cornered tournament would be resumed this season, same to take place on Barre club's course, this tournament has not taken place for the war, and so many of the young players having to take part in same, the tournament has not taken place for the past three years. However, it is to be resumed, and Greensboro club plays Barre club on Friday, Aug. 15, at 4 o'clock on the Barre club's course. On Saturday, Aug. 16, Greensboro plays Montpelier on Barre's course. The date for the game between Montpelier and Barre in this tournament has not yet been fixed. A large cup goes to the winner of this tournament and the club that wins it three times keeps it. Greensboro has won it twice, Barre club once, and Montpelier has yet to get in on it. The Barre club has other games arranged for this season, as it travels to Burlington on Aug. 16 to play the Waubesa Golf club, and on the following Saturday will play a return match at Barre.

The Vermont state championship takes place this week and some of the Barre players leave a night for Bennington, where the annual tournament takes place. William H. Johnston, the present champion, is going forward to defend his title and he has the very best wishes of all the golfers in this city.

It is to be hoped that most of the team players will be on hand at the Barre course on Tuesday night, as the captain of the team, L. R. Hutchinson, has a few things to put forward to them. Below are the full results of Saturday's match game at Greensboro:

Barre	Greensboro
Johnston	0 W. E. Libbey
Walsh	1 McFarland
A. Freeland	0 Morrow

A GOOD MEDICINE FOR LOSS OF APPETITE

general debility and that tired feeling is Hood's Sarsaparilla. This highly concentrated, economical medicine is a great favorite in thousands of homes. It is peculiarly successful in purifying and revitalizing the blood, promoting digestion, restoring animation, and building up the whole system.

Get this dependable medicine to-day and begin taking it at once.
If you need a laxative, take Hood's Pills. You will surely like them.—Adv.

IMMENSE DRY DOCK ERECTED FOR \$5,000,000

Difficult Engineering Feat Performed by
United States Government at Pearl
Harbor, Near Honolulu.

Washington, D. C., Aug. 4.—The official opening of the navy dry dock at Pearl Harbor, near Honolulu, Hawaii, late this month, will mark the successful completion of one of the most difficult engineering projects ever undertaken by the United States government. The immense dock represents a total investment of more than \$5,000,000 and has been under construction for 10 years. Secretary of the Navy Daniels will officiate at the christening of the dock about Aug. 25.

The dock is completed just in time to add a much needed facility for care of the ships of the Pacific fleet. The first vessel to enter the dock will probably be one of the dreadnoughts of Admiral Rodman's force, possibly the New Mexico. The dock is 1,001 feet in length, 32½ feet deep, 114 feet wide at the bottom and 138 feet wide at the top. It will dock the largest ship of war now afloat or contemplated.

After the sections of the dock had been finished and were being anchored in their places in 1913 the water was pumped out, whereupon the bottom of the dock was forced upward by pressure from the sides and the engineers and workmen were forced to stand helplessly by and watch the fruits of four years of labor and millions of dollars of money crushed into a shapeless mass of debris.

A new plan of construction on a much greater scale was then adopted. Concrete sections 60 long and the full width of the dock were cast one at a time and lowered to the bottom of the drydock, securely anchoring it. Then the great structure was built. Early in March this year the dock was cranked out for the first time. The upward pressure of the bottom had been overcome and the structure rose but three-sixteenths of an inch when perfectly dry.

PACIFIC COAST WON A HARD BATTLE

Division of the United States Fleet and
Dispatch of Part to Pacific Coast
Gives That Section "Adequate
Naval Protection."

San Francisco, Aug. 4.—Division of the United States navy and dispatch to this coast of the Pacific fleet marks the end of a long campaign that has been waged by officials and citizens of Pacific states for what they termed "adequate naval protection."

The Pacific coast attitude had been that great possibility of attack menaced the Pacific states unless the nation sent westward a large fleet.

Active campaigning for a big Pacific naval force began with the close of the Spanish-American war. It was urged that the Philippines and other Pacific islands possessed by the United States should be protected. Governors, congressional representatives and other officials made strong representations in the months following that war for increased naval strength on the Pacific.

After the building of the Panama canal many men in public life asserted that, in case of attack from the Pacific and destruction of the canal the largest part of the country's naval force would be kept away from the Pacific for a long period during which the Pacific states would be open to invasion.

Public men and newspapers of the Pacific coast were practically a unit for naval expansion and ultimate station of a large force here. Plans for curtailing naval expansion with the signing of the armistice in some quarters were countered by many insistent demands from that coast that the full building program be adhered to.

The announcement of Secretary Daniels that the navy was to be divided and approximately 200 ships stationed in the Pacific was hailed with delight.

BRITISH NAVY HONORED IN THAMES PAGEANT

Great Demonstration Was Held with the
Allies Given Only Slight Recognition.

London, Aug. 4.—The important role played by the British sea service during the great war was commemorated today by a naval pageant on the Thames, the day marking the fifth anniversary of the historic mobilization of the British fleet. Plans for the event, while giving recognition to the allied and associated powers, laid stress on the fact that this was a purely British occasion, and the Union Jack and the banners of St. George, St. Patrick, St. Andrew and St. David predominated in the decorations along the riverbank.

Tower bridge was the point selected for the start of the five-mile procession. Owing to the fact that the space beneath the Thames bridges is somewhat limited, it was impossible to include large vessels in the pageant, but the procession lost nothing of interest because of this. The Thames was the King's highway and when the people of London used boats just as their descendants of to-day use taxicabs were recalled by the appearance of King George's royal barge. This craft was built more than 500 years ago for Queen Mary by King William, and was richly ornamented with crimson and gold. In planning the celebration, efforts were made to symbolize the development of Great Britain's naval power and typify the connection between the navy and the mercantile marine.

REVENGE WAS CRIME MOTIVE

Back of Bombing of House
of Oscar Lawler in
Los Angeles

BOTH MR. LAWLER AND HIS WIFE BURNED

In Fire Which Followed the
Explosion—Both May
Recover

Los Angeles, Cal., Aug. 4.—Oscar Lawler, former assistant United States attorney general, who was seriously burned yesterday in a fire following a bomb explosion, which wrecked his home, has a chance of recovery, according to his physicians early to-day. They seemed certain of the recovery of Mrs. Lawler, who also was badly burned.

The explosion was said by the police to have been the result of a desire for revenge by a group of dynamiters whom he prosecuted some years ago in the middle west.

A reward of \$5,000 for the arrest and conviction of perpetrators of the bomb outrage has been offered by the Merchants' and Manufacturers' association, and Mayor Snyder announced that he would ask the city council to-day to offer an additional \$10,000 reward.

Deep burns covered nearly half of the area of Mr. Lawler's body, chiefly on the upper part. Mrs. Lawler's burns were of a secondary nature, but her sufferings were increased by a fracture of the pelvis, sustained, it was believed, when her husband dropped her fainting from the second story of their burning home.

Awakened shortly before 3 o'clock on Sunday morning by a terrific explosion, immediately below the second story porch, where they were sleeping, and seeing the home enveloped in flames, Mr. and Mrs. Lawler attempted to reach another sleeping porch to rescue their five-year-old son, Oscar Jr., and his nurse.

When they were cut off by the fire, Mrs. Lawler fainted. Her husband carried her through the flames to a window and lowered her to an awning which covered a window on the ground floor. From the awning she fell to the ground. Mr. Lawler then jumped, striking his head on the steps. The boy and his nurse were rescued uninjured.

Neighbors told to-day of having seen a mysterious group of men near the Lawler home last Friday night, of hearing footsteps shortly before the explosion, of seeing a man dressed in gray several times in front of the residence and of a speeding automobile immediately after the explosion.

Three explosions were heard at the house and the police believe they were caused by the bomb and two five-gallon cans of gasoline. Parts of the bombs were found 500 feet away. The Lawler home was practically destroyed by fire.

MORETOWN

Local Baseball Team Defeated Montpelier
by Score of 6 to 1.

Moretown continued on its winning streak Saturday by defeating Montpelier on the home grounds 6 to 1. The game was fast and exciting throughout, with both teams playing good ball. Montpelier pulled off a couple of nice double plays which shut off runs for Moretown. Granaal was on the mound six innings and during his stay allowed the visitors three scattered hits. Duba pitched the last three innings and all Montpelier could do off his delivery was get one scratch hit. Grandfield hurt his shoulder in sliding third base in the first inning and was forced to retire in favor of Flynn, who caught a nice game. Grandfield will be out of the game a week or so, it is expected. Moretown plays Waterbury at Waterbury Thursday.

Lineup:

Summary: Runa, Flynn, Ward, Grandfield, Malden, Duba 2, Laird: two-base hits, Ward 2; hit by pitcher, Slayton, Gordon; double plays: Pape to Smith, Gross to Barrett; Pape to Smith; Granaal 3, off Duba 1, off Barrett 2, off Laird 8; passed balls, Kelley 4; umpire, Wilcox; scorer, Turner.

STATE BANK FARMING.

First of North Dakota's Non-Partisan
League Program in Force.

Fargo, N. D., Aug. 4.—The industrial program of the National Non-Partisan league, which was endorsed by the voters of North Dakota at a special referendum election on June 26, is being put into operation.

The bank of North Dakota, in which all state, county and municipal funds are to be deposited under the new laws, is in operation, but is not yet ready to make loans and handle deposits on a big scale.

The bank now employs 20 persons with an annual payroll of \$50,000. The bank's resources will be more than \$31,000,000. Public funds totaling \$21,000,000 have been reported and there are state bonds of \$10,000,000. Only about \$100,000 worth of bank bonds have been sold in the state, but bank officials explain this by saying investors held off pending the outcome of the referendum. The bank had planned to sell \$500,000 worth of bonds.

When the institution is in full operation a statement similar to those from the federal reserve banks will be issued monthly outlining conditions over the state. J. R. Waters, formerly state bank

CUTICURA HEALS SKIN TROUBLE

On Back and Face. Itched
and Burned.

"I first noticed red eruptions break out on my back. After a short time they broke out on my face. They would itch and burn and I would lie awake all night scratching and bathing them. I would have to stop work, my head would itch so."

"I saw an advertisement for Cuticura and sent for a free sample. Then I bought more and I used two cakes of Soap and two boxes of Ointment and they healed me." (Signed) Miss Ida Frank, 193 Magnolia St., Roxbury, Mass., July 12, 1918.

These fragrant emollients are all you need for all toilet purposes. Do not fail to test the fascinating fragrance of Cuticura Talcum for the skin. For sample of Soap, Ointment and Talcum free address post-card: "Cuticura, Dept. H, Boston."

examiner, is head of the bank, and F. W. Cathro, for 30 years a North Dakota banker, is director general.

The bank will provide funds for carrying out the industrial program, and an industrial commission will control the state-owned industries to be established.

The Home Building association, which will provide funds for persons desiring to build homes, is expected to be in operation soon. The Mill and Elevator association, in charge of the league's wheat marketing and distributing system, has been inspecting mills and elevators with a view to purchasing two or three to start the experiment. The state is not expected to start an extensive building program for several months.

Those directing the work express confidence that every phase of the program will meet with success, despite strong opposition which they say is being offered by league opponents.

TRAFFIC IS THREATENED.

By Strike of Engineers on Southwestern
Railway of England.

London, Aug. 4.—A strike of one of the branches of the locomotive engineers, involving 600 men, failed to tie up the Southwestern railway this morning. The strike was called soon after midnight. The superintendent of the Southwestern steam trains had left Waterloo station and that the entire electric service was operating.

The company later made an announcement that train service may be considerably restricted, and trains are being run as engines can be found for them.

RUMANIANS IN BUDAPEST

Troops Entered the Suburbs
Sunday, Says Vienna
Dispatch

PREVIOUS REPORT PLACED THEM NEAR

A Budapest Dispatch Had
Stated the Rumanians
Were Halted

Paris, Aug. 4.—Rumania troops entered the suburbs of Budapest yesterday, according to a dispatch received here from Vienna.

A Budapest dispatch, which was filed in that city on Sunday, stated that Rumanian forces advancing toward the Hungarian capital had been halted at Hatvan and Czegied. These towns are respectively northeast and southeast of Budapest, and are each distant approximately 45 miles.

BELA KUN GRANTED ASYLUM IN VIENNA

Official Statement Says He Will Be Allowed to Stay Until Hungary Is
Able to Receive Him.

Vienna, Aug. 4.—Bela Kun, former virtual dictator of Hungary, and his associates have been granted asylum by Austria to avoid disturbances and unnecessary bloodshed in Budapest, according to an official statement explaining the presence of Bela Kun in this country. The statement says they will be allowed to remain in Austria, under detention, until Hungary is able to receive them again, but will not be permitted to carry on political propaganda.

REHABILITATION MAKES RAPID PROGRESS

Suitable Occupation Found for Every
Disabled Soldier by the Federal
Board for Vocational
Education.

Washington, D. C., Aug. 4.—Before the report of the statistical department of the federal board for vocational education can be approved new figures must be inserted in the records, because of the rapid daily increase in the number of disabled men coming in contact with the board's officers. The increase of the work in June compared with the average increase of the preceding six months indicates a very gratifying progress.

The total number of men wounded in the A. E. F. has been recently reported as 213,447. A large number of these severely wounded cases are still held in hospitals. The vocational officers of the board have made contracts with 146,031 disabled persons, of which number 99,887 have been surveyed by vocational advisors. Of these 18,763 have been reported to the central office to be approved for training and 5,878 have been placed in training.

The latest distribution of claims as given by the war risk insurance show tuberculosis of the lungs to be the largest single cause for disability, with a total of 18.3 per cent; wounded and injuries to legs not necessitating amputation 17.4 per cent; wounds and injuries to arms not necessitating amputation 7.8 per cent; heart disease 6.3 per cent; eyesight 4.3 per cent; wounds and injuries to arms necessitating amputation 3.6 per cent; nerve diseases and shell shock 2.9 per cent; insanity 2.8 per cent; deafness 2.8 per cent; wounds to legs necessitating amputation 1.4 per cent; wounds to the head 1.3 per cent; all others 31.2 per cent.

Occupations suitable for every type of disability have been found for the disabled men who have applied to the federal board for vocational education. If you know of one who is still discouraged give him the address of the board—200 New Jersey avenue, Washington, D. C., or locate the branch office in your district.

Treat 'Em Rough.

An offensive against the high cost of eating is being started by the governors of Ohio and Maryland. Gov. Cox and Gov. Harrington realize that any effective move against food profiteers must be national in its scope. They know that working separately the states can make little headway against the enemy.

Most of us have expected for some time that Congress would come across with a program for reducing the price of food, particularly as it has heard the findings of the Overman committee before it for some time. The committee's claim of radical doctrines flourishing here should have suggested at once the need for a revision of living conditions. When the advocates of a new economic

order gain adherents, it is reasonable to suppose that the old system is unsatisfactory to a good number. Most men are innately conservative; so long as the old familiar ways are bearable they will not turn to the unknown.

If someone must forestall the national government in this matter of taking action against the saboteurs of food distribution it is preferable that it be governors who do so. In Italy and France it is the people themselves who are bringing prices down. We know how they do it.

When some citizens roll in luxury while others must resort to violence in order to live, the feeling grows that the government has failed. More than the cost of bread and meat is at stake in the coming battles between our government and the profiteers.—Boston Globe.
